eSiteView Task Reporting

INTRODUCTION

eSiteView (eSV) is an application systems tool for managing projects or specific site works information. The systems coordinate tasks and process real-time data & images of the executed tasks for instant work reporting and data analytics.

- Registered with Intellectual Property Corporation of Malaysia (CRLY00015542)
- Process real-time data and information for reporting and monitoring purposes
- Simple digital application for stakeholders; *project owners, planners and supervisors* to manage site work data and information

MANUAL PROJECT MANAGEMENT

WORKING IN SILOS

1 PROJECT MANAGER
Manual schedule development based on work order

2 SITE SUPERVISOR
Actual field works execution

3 SITE SUPERVISOR
Image capturing & information reporting

4 ADMINISTRATOR
Prepare progress report manually based on deliverables for payment claim

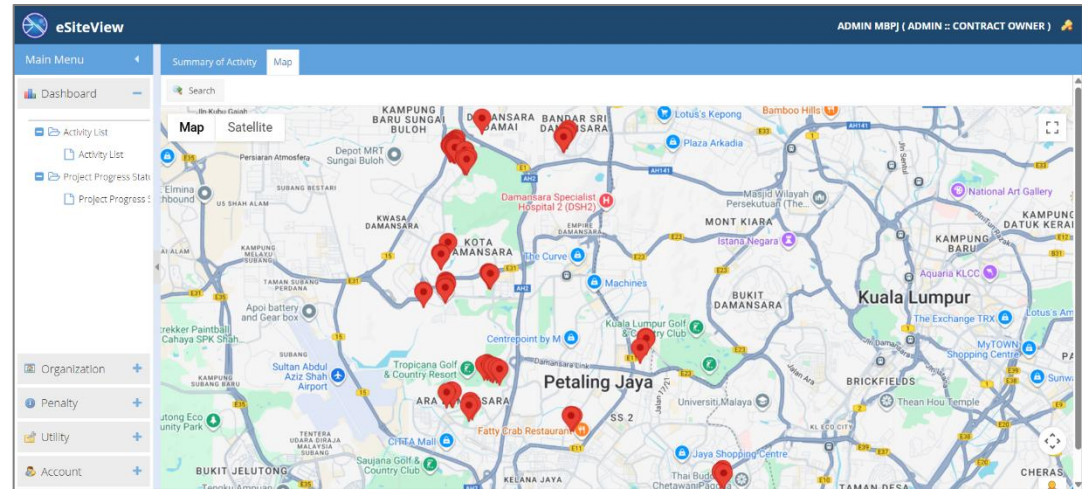

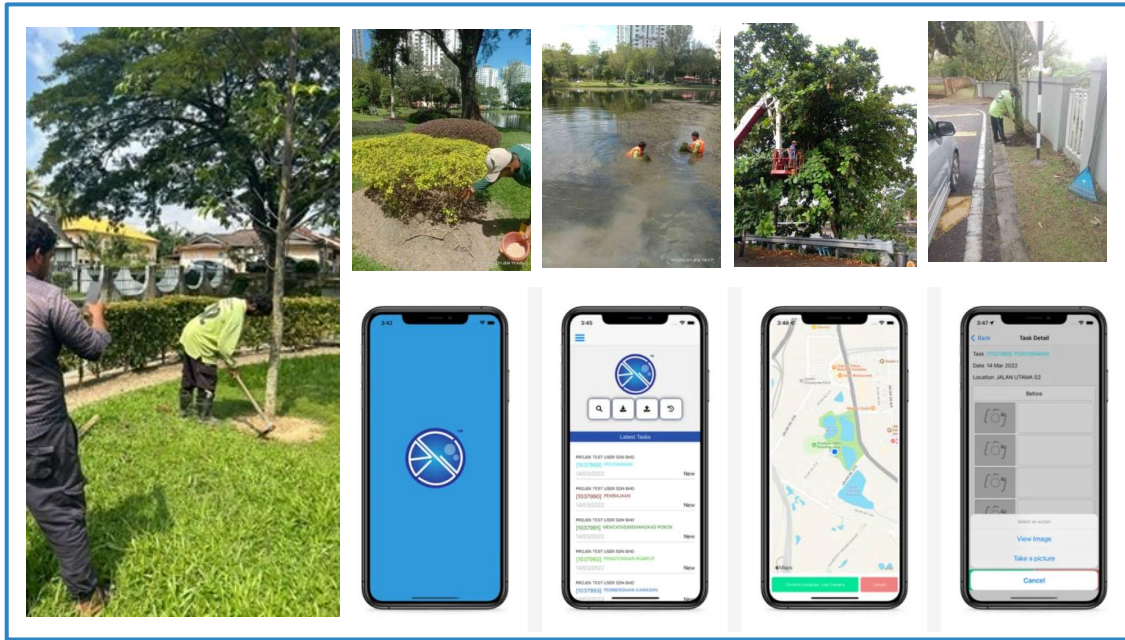

PROBLEMS WITH MANUAL PROCESS & WORKING IN SILOS

| | Contract Owner / Governance Entity | Contractor / Company |
|---|--|---|
| 1 | Extensive manpower to monitor high volume of concurrent, on-going projects activities at different site work locations | Time consuming payment process because of manual information verification |
| 2 | Manual project reports consume large physical spaces for storage, and keep on increasing in size | Expose to penalty charge because of error, incomplete information or inaccurate data submission |
| 3 | Non systematic and inefficient site work monitoring and prone to miscommunication | Inefficient information delivery on project or site activity |
| 4 | No standardization in format for site reporting | Compromising on work productivity because of weak monitoring |
| 5 | Inaccurate information on site work executed because of human error or integrity issues | Questionable site work information submitted |

5. Added SUBMIT button  
- Ensures keyboard doesn't block  
- Better mobile experience  
4. Added BOTH Command binding  
- Command binding for MVVM  
- Clicked event as fallback  
5. Simplified UI structure  
- Removed complex Grid layout  
- Direct button placement  
  
The Login Button Now Has:  
- [X] Command binding to Login
